

Get your Business Online Fast: Domain Registration, DNS Hosting & Website Hosting

Overview

Companies need a legitimate online presence—both a Website and professional email address—to be taken seriously in today's business world. A Website can also help you to attract more business from potential customers searching the Internet. To accelerate this process, we provide a comprehensive

online presence solution featuring Domain Name Registration coupled with Domain Name System (DNS) hosting and Windows® Web hosting.

BENEFITS

- Get your company online professionally, easily, and affordably—within 24 hours
- One vendor, one bill—look no farther for a comprehensive Online Presence solution
- Get 24/7, live, U.S.-based
- Easy-to-use tools help you create a professional Website with little to no technical experience

By offering domain name registration with DNS hosting, we make it fast and affordable to get your business online. You can buy new domain names for Web sites and professional email addresses. Do you already have a domain? Transfer your existing domains and consolidate with one vendor—at one low price.

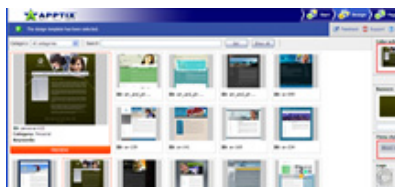

We also provide shared Windows Website hosting, so you only pay for the server capacity needed. Websites are hosted on easy-to-manage Microsoft Internet Information Server (IIS.)

Create Websites Quickly & Easily with SiteBuilder

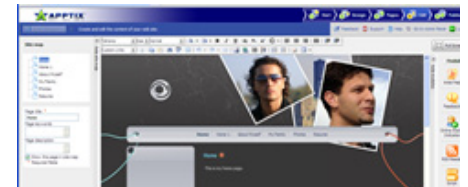

Our Web hosting service features an easy to use SiteBuilder tool and flexible, customizable templates to help you create professional Websites—fast.

Websites are easy to create using SiteBuilder's convenient launch tool.

Select a template, color scheme, and menu style here. Then upload a banner and logo, and insert site info.

Websites are easy to create using SiteBuilder's convenient launch tool.
