INVESTIGATORS
for today's
digital world

BEYOND conventional *investigation*

OPTiMO-Digital Forensics goes where traditional investigators simply cannot - Between the 0's and 1's to identify electronically stored evidence. We specialize in finding non-circumstantial evidence to help build cases using Electronically Stored Information (ESI).

OPTiMO Digital Forensics is a Pennsylvania based company skilled in meeting the extreme demands of all forms of Digital Forensics cases for Private, Commercial and Government entities. The applications of our services are boundless providing litigation support for cases ranging from eDiscovery to Tort Actions to High Crimes.

With our state-of-the-art laboratory and highly-skilled analysts, OPTiMO-Digital Forensics is the investigator you've been searching for in today's digital world.

WHERE IT'S HIDDEN

Perhaps the most powerful fact to note with regard to ESI is that it's all around us. In the simplest of terms, if it stores data on a digital medium, it has left a trail of evidence. ESI can be found on a wide range of electronic devices such as Desktop Computers, Laptops, GPS devices, Mobile Phones, Digital Music Players and even a Gaming System - even if the data has been deleted, chances are we can find it.

PULLING BACK THE DIGITAL VEIL

OPTiMO-Digital Forensics offers services that cover all aspects of ESI allowing us to peel back every potential layer of a digital evidence trail. Examples of our services are:

- 🔍 **SYSTEM FORENSICS**
Encompasses all hard disk and "deadbox" scenarios.
- 🔍 **MOBILE FORENSICS**
Cell phones, smart phones, GPS devices - Any mobile device that stores ESI.
- 🔍 **EDISCOVERY**
Identification, gathering, processing and preserving ESI related to litigation discovery.
- 🔍 **NETWORK FORENSICS**
Real-time, proactive ESI analysis of your digital network.

Our Laboratory uses the latest Forensic tools and security practices along with validated processes and quality controls to maintain the integrity of the results in support of an investigation.

AN INVESTIGATOR FOR EVERY SECTOR

Private or Public, Corporate or Government, OPTiMO - Digital Forensics offers strategic, scalable services to provide solutions relevant to any entity or agency. A few examples are:

- 🔍 **CORPORATE**
Embezzlement, industrial espionage, intellectual property.
- 🔍 **GOVERNMENT**
Cyber-terrorism, destruction of gov't. data.
- 🔍 **HEALTHCARE / INSURANCE INDUSTRY**
Fraudulent claims, malpractice actions.
- 🔍 **LAW ENFORCEMENT**
Petty crimes to high crimes.
- 🔍 **LAW FIRMS**
Divorce, tort, criminal defense.

BEYOND THE METROPOLIS

Historically, cutting-edge technology employed in conjunction with highly trained, specialized personnel, like that of OPTiMO Digital Forensics, was only available in major metropolitan areas.

Strategically located in Bloomsburg, PA, OPTiMO-Digital Forensics is positioned to bring world-class Digital Forensic services, beyond the big cities, to the entire Mid-Atlantic Region. We are able to provide a level of excellence and expertise required to be regarded on a par with any laboratory, in any city, in the country.
