TECHNOLOGY SOLUTIONS for a *new era*

Since 2008, OPTiMO Information Technology has provided best-in-class IT services to commercial, industrial, and government customers. Our professionals work on projects of global scope, including web-based e-commerce and business support applications for some of the largest IT operations in the world. We have projects in cutting-edge digital forensics, device data recovery, and e-discovery on major legal cases. OPTiMO also provides design and implementation services for the latest cloud-based infrastructure needs.

WHAT WE DO

OPTiMO offers a wide range of services:

-  **TECHNOLOGY SOLUTIONS**
IT strategy and project management; systems engineering and integration; application development; database design and development services.
-  **STAFFING**
IT talent for short-term, long-term, or permanent placement in the commercial and government sectors.
-  **DIGITAL FORENSICS**
Complete investigation services for electronically stored information (ESI), including discovery, recovery, analysis, and reporting.
-  **INFORMATION ASSURANCE**
Disaster Recovery / Continuity Of Operations Planning (DR/COOP) and Business Continuity Planning (BCP) services, including software, infrastructure, and network security services.
-  **CLOUD SOLUTIONS**
Highly configurable shared platform solutions with offerings such as Cloud Computing and Storage, Hosted Exchange, VOIP, SharePoint, Web Conferencing and Secure IM.

OPTiMO's commitments to high levels of client service and recruitment and retention of the best and brightest IT talent have resulted in explosive growth in OPTiMO's operations. We maintain three offices: Bloomsburg PA, Washington DC, and our newest facility in downtown Wilkes-Barre PA.

OPTiMO is looking for fresh talent looking to hit the ground running, rapidly learn the skills required to master new technologies, and take personal responsibility for delivering high-quality IT systems. Our customers have come to rely on OPTiMO to deliver on-time, every time, with the highest quality.

are *you* one of us?

WHY WE ARE THE BEST

OPTiMO's broad and diverse service portfolio sets us apart as a company, but more than that, our growth and success is due to our core philosophy: to go beyond delivering just a technology solution that works, to solving business problems and delivering business value.

OPTiMO's approach is collaborative and based on building a long-term relationship with our clients. We deliver the best, and because of that, our clients turn back to us for help with their new project needs. We are driven by the pride of having repeat customers.
